

Chinese Investment in Western Australia

BREAKFAST 15 NOVEMBER 2013

Western Australia accounts for roughly 80% of China's total investment into Australia over last five years, with the bulk of the \$US45 billion having been invested between 2006-2012 to opportunities in resources.

In previous years Australia has been the most significant recipient Country of Chinese Outbound investment, however is this trend set to continue?

Join our speakers as they discuss Chinese Investment in WA from the Property, Agriculture and Resource perspectives.
